Re: Commonwealth of Pennsylvania vs.  
Chemical Leaman Tank Lines and  
William Dick

Dear Dan:

I received a telephone call today from Arthur Feld, Esq., who is connected with the Department of Environmental Resources and who has been reviewing the above matter.

Mr. Feld advises that the backfilling has been completed but that the seeding was not done as required by paragraph 6. It was my understanding that Mr. Dick would do this.

Could you please review the matter and advise me so that I may advise Mr. Feld.

Yours very truly,

METZGER, HAFER, KEEFER,  
THOMAS & WOOD
